(54) PURIFICATION METHOD FOR COOLANT FOR ENGINE

(57)Abstract:

PROBLEM TO BE SOLVED: To prevent corrosion of the inside introduction part of a coolant for an engine and the inside of a radiator and to purify and reuse the coolant itself.

SOLUTION: A pair of permanent magnet groups are so mounted and fixed to the circumferential surface of a rubber hose for connecting the introduction part for the coolant for an engine to the radiator as to face them to each other.
